

Punk and the His Future

I can't believe I didn't put something up on this sooner.

As I'm sure you've all seen by now, Punk had an awesome promo on Monday that was at least somewhat shoot. What are your thoughts on where he's going and what he'll be doing in the future?

At the moment, I'm thinking he's going away, at least for awhile and that Cena gets the clean win. I think we're probably building this up too highly, because the whole thing ends with a single fall. I'd like to be wrong, but I don't think it can end any other way.
