

Underrated Matches

What are some matches you don't hear people talk about that you're a fan of?

One of the matches I remember liking is the main event of Uncensored 97. it's a three team 12 man tag with Team Piper vs. Team WCW vs. Team NWO with a stipulation if each of them wins. The whole thing actually works and there's nothing to it that is too far over the top that it gets ridiculous. The post match appearance by Sting and confirming that he's WCW is awesome stuff too.
