

# Name Five Great Nitro Matches

Somebody mentioned this on my forums and while I thought it was easy to do, the more I thought about it the harder this challenge became. The obvious one is Bret vs. Benoit in the Owen match, but other than the classics from Nitro are few and far between.

What lists do you guys have? I can rack my brain and probably come up with five but this is a lot harder than I was expecting. On Raw I can probably give you a top ten of great matches from just Shawn Michaels but for Nitro it's not so easy. Thoughts/suggestions other than Bret vs. Benoit?
