

Thought of the Day Again: People Complain About Cena's Title Reigns

But look at the tag division from WM 16 to WM 17. Coming into Wrestlemania 16 (April 2, 2000), Edge and Christian had never won the tag titles. Going into Wrestlemania 17 (April 1, 2001), they were record 6 time tag champions and would win their 7th titles that night. In the same year, five other teams (Dudleyz, Hardy's, RTC, Too Cool and Rock/Undertaker) all won tag titles. That's about one title change every month, yet people complain when it changes every three months today. This was a golden era of tag wrestling though right?
