

Thought of the Day: A Real B+ Player

Unlike Daniel Bryan of course. A real B+ player is someone like Sheamus. He's capable of having a very good match under the right circumstances, stays over, has a good look, has a solid resume and can easily slide into the main event scene if need be. That's a very valuable hand to have in the company and he's still young enough to be turned into something with a bigger impact. Nothing wrong with that at all.
