

Thought of the Day: The Legend of Brock Lesnar

As you may have heard, Paul Heyman's client Brock Lesnar conquered the Undertaker's Streak at Wrestlemania, becoming the 1 in 21-1. Since then, Brock has been seen once on WWE TV and.... That is the most brilliant thing WWE could have done with him. For the last three months, Paul Heyman has reminded us of Brock Lesnar. We've heard of him doing the impossible and being the monster that even the Undertaker couldn't stop. As time has gone on, that's the image that people have gotten in their heads: Brock Lesnar as an unstoppable beast that destroyed the Undertaker without breaking a sweat, instead of Brock Lesnar having a war with Undertaker and barely beating him. The longer you know that he's lurking, the bigger an impact his return makes. They're building up his mystique and that's the best thing they could have done.
