

I'm Stunned

Raw spoilers incoming. The controversy wound up being Rock interfering in the Rumble, meaning Rusev got screwed. The solution? Bryan vs. Rollins tonight with the winner going to face Reigns at Fast Lane for the Mania title shot. Rusev wasn't mentioned in the promo.

We're not done though. REigns was in the ring for the discussion and then had to fight Big Show. Big Show PINNED REIGNS, for his first pinfall loss in a singles match in less than three minutes. I know I said it wasn't fair at the Rumble, but commence saying this company is making this nonsense up as they go.
