

Reviewing the Review – Monday Night Raw: February 16, 2015

Will not be posted. I started writing it up and it became clear that there wasn't much else to talk about with the show. Last week's episode pretty much speaks for itself as it's clear there's no need for Fast Lane to exist. I'll spare you guys from three pages of "remember this? Well it did in fact happen and it does in fact mean very little."
