

Thought of the Day: Wrestlemania XXXI Didn't Mean Much

Think about it: what from that show still matters less than two months removed?

Other than Rollins and Cena winning their titles, almost nothing that happened there matters.

Bryan – Vacated his title

Kidd/Cesaro – Lost the titles they were defending

Sting – Hasn't been mentioned

Lesnar – Appeared once

Undertaker – Hasn't been mentioned

Wyatt – Basically no sold the loss

AJ/Paige – Both gone

Bellas – Now faces

Big Show – Nothing changed after winning the battle royal

Cena is still feuding with Rusev and Rollins is still feuding with Orton. Other than that, it's almost like Wrestlemania just came and went.
