

Thought of the Day: I Wish I Hadn't Called This

I was looking back at an old NXT review from December 11, 2013. Here's my take on Ascension back then.

There's really no one left for Ascension to beat in NXT but they would die on the main roster. The skills are there, but can you imagine Cole trying to talk about these guys? They would be buried by the commentary so badly that they'd be lucky to get a win over Los Matadores.

Have they even beaten Los Matadores? I don't believe so.
