

# WWE Network And An Adult Website

This is something I'd expect out of TNA. So on the Foxiest Features episode of the List, there's a quick comedy segment about a dating site for women who love men with scars. There's a website listed as part of the joke.....and it's an actual adult website. It's not full on adult stuff but there are various links for various similar sites. This is a case where spending all of half a second typing the site into a computer could have prevented the problem, but now it comes off as something to make WWE look stupid.
