Dang it. You had to know this was coming at some point, but that doesn't make it any better. At the end of the day, this adds yet another hour of WWE programming a week, which puts it heads up against AEW and also will lead to WWE "fixing" the product. You know, the one thing that doesn't need fixing.

I really hope this doesn't happen because it's going to be a nightmare for everyone involved, especially the fans.
