

# Making Some Changes

I'm changing ad servers in the near future so things might look a bit different around here, including the placement and amount of ads. This will be a bit of a work in progress so please bear with me. The initial new version will not likely be the final thing so if it's bad at first, please be patient. I can tweak whatever is needed so if people aren't happy with it, I can adjust it as we go.

Also note that this is JUST for the ads and nothing will be changed as far as content, scheduling, etc.

Thanks for sticking around as always,

KB
