

Ads Coming

So since I'm one of the most passive/lazy people you'll ever meet, I stopped getting money from the ads on here about a year ago and finally got around to setting up some new ones. Basically I survive on the e-book money and I'm getting married this summer so a bit more cash can't hurt. I'm sorry if they get on your nerves but they have to be there for my own sake.

Full Mouth of the South Shore Appearance

It runs just under two and a half hours but it covers a lot of ground including Raw, Wrestlemania XXXI and Perro Aguayo. I'm on there the entire time.

A Few Updates

First of all I've added a Columns section to the quick links menu on the right. I Want To Talk A Little Bit About has pretty much been replaced by the columns so there needed to be a place where they were all collected.

Second, I gave Lucha Underground its own section on the All Reviews and Miscellaneous pages. They have almost twenty shows so it's long past time it had its own area.

KB Makes Wrestlemania Predictions

The show is always cool and I've been on it a few times. The host is a regular commenter here and worth checking out. The show will also be available on demand after it airs tonight. We'll be making Wrestlemania predictions and talking about whatever else has been going on in recent weeks. Check it out.

New E-Book: Only On Pay Per View: 1998

The Monday Night Wars is one of the most discussed periods in the history of professional wrestling. Over the years, the WWF and WCW did battle every Monday night for supremacy in professional wrestling. Books have been written about it and WWE produced a long documentary series on the subject. However, there's another aspect of the battle that doesn't get nearly as much attention.

While the more publicized war was taking place on Monday night, there was another war being waged once a month on Sunday night. Every month, both companies produced a three hour pay per view special where the really big matches and blowoffs to the stories took place. These were just as important as the TV shows and had more than their share of great matches and moments.

In this book, I'll be looking at all twenty four pay per views from 1998, one of the most pivotal years of the Monday Night Wars. I'll be breaking down every match, segment and show as a whole. As usual I'll be providing play by play, historical context and analysis of every show. The reviews are all new and never before seen.

The books runs over 340 pages on a Kindle and only costs \$3.99, or the equivalent in other currencies. If you don't have a Kindle or e-book reader, there are several **FREE** apps you can use to read it on pretty much any electronic device. You can find those from Amazon [here](#).

You can pick up the book from Amazon [here](#).

From the UK Amazon [here](#).

From the Canadian Amazon [here](#).

Or if you're in another country with its own Amazon page, just search "KB Only On Pay Per View" and my book will be the first thing that pop up.

Also you can still get any of my previous books on the WWE Championship, Monday Night Raw from 1998 and 2001, Monday Nitro from 1995-97, In Your House, Summerslam, Starrcade, ECW Pay Per Views, Royal Rumble, Saturday Night's Main Event and Clash of the Champions at my author's page [here](#).

I hope you like it and shoot me any questions you might have.

Thank You All Again

Yesterday was the best day I've ever had for the E-Books to cap off the best month I've ever had. Thank you to anyone who picked one of them up and thank you for keeping me going this long.

New E-Book: KB's History of Saturday Night's Main Event

One of the most common complaints wrestling fans have today is how much content there is to watch. WWE alone has at least seven hours of wrestling TV a week. For over twenty years, we've gotten used to wrestling airing every Monday night with some of the biggest stars in the sport squaring off. However, things weren't always the same. Back in the 1980's, wrestling television was based around the idea of squash matches. Most shows featured a big name against an unknown and matches against other stars were almost unheard of.

Things began to change in 1985. Powered by the strength of Wrestlemania and Hulkamania, the WWF was able to air a series of specials on NBC, featuring matches between big name stars and even title matches, all for free. The shows were major successes and helped push the company into their golden era, sending professional wrestling to heights no one had ever seen possible.

In this book, I'll be looking at all thirty six episodes of the series, as well as the five Main Event specials, breaking down every match, segment and show as a whole. As usual I'll be providing play by play, historical context and analysis of every show. The reviews are all new and never before seen.

Remember That TNA Access Thing I Mentioned?

Well it's starting to come to fruition. One of the co-hosts of the show I've been on before got an interview with Jeff Jarrett, which can be heard here:

<http://www.broiledsports.com/2015/01/broiled-sports-exclusive-interview-w.html>

To help support their efforts to get more access like this (and potentially to have me getting the same access), check

them out at:

i95sportsnetwork.com

Also make sure to like them on Facebook at:

<https://www.facebook.com/MouthOfTheSouthShoreRadioShow>

And follow them on Twitter:

@MotSSRadio

This is an actual possibility at this point and it would do them (and me) a lot of good to get some extra support behind them.

Criticize Me

I can always use some criticism/suggestions so what do you want to see me do more/less of from here on out? Is there something I do too much of or not enough of? Let me know if there is or isn't so I can try to make some adjustments if need be.

And no I won't be doing more puro, at least not on a regular basis. I just don't care enough.

Thought of the Day: Keeping It Simple

Why do people make these things so complicated?

Merry Christmas.
