

Raw Draws Lowest Rating In Over 15 Years

It was 2.2. My question: why does this surprise anyone? I'm surprised it's that high. We had a taped three hour show where NOTHING HAPPENED on CHRISTMAS EVE. What were they expecting to happen? I'm amazed that this is considered a big story by some sites. Of course it drew a terrible rating. What did they expect? Kids to stay up late on Christmas Eve to watch Cena beat up Del Rio again?
