

Back on the Impacto Estelar Podcast

It's a fun chat as someone who calls me his mentor (egads the problems that man must have) and I talk about Raw 2002, some events from this week and wrestling in Puerto Rico. Plus a bit of my backstory if you've never heard it before. Please bear with us on some of the technical issues as the content is there despite some stuttering issues. I've known this guy for a long time now and he's a very talented writer who knows his stuff.

Check out his site too for a ton of content on lucha libre, albeit in Spanish.
