

EOTY Awards – Surprise of the Year

More options than I thought here. I'll take Rock's return. The rumor for the guest host was Justin Bieber and then they had the legs get out. I was skeptical when I saw them because I thought it would still be someone else, but I didn't predict Rock. That was awesome and a great thing to see. And for those of you that still think it, no he didn't abandon us in the first place.
