

# WWE.Com's History Of The WWE Title

<http://www.wwe.com/classics/history-wwe-championship-26092271>

This was posted after the new title was unveiled. There's some cool history stuff in there. Unfortunately it's a slide show rather than a full on history of the championship. It would be nice to see someone talk about every title change and various other important matches in its history.....wouldn't it?
